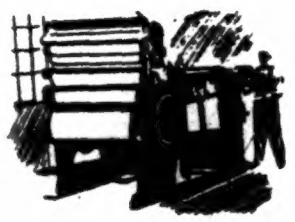
DIRECTORY PUBLISHERS FOR 750 CITIES

Polk City Directories have been the accepted basis for population listings in hundreds of American cities. These directories, compiled regularly, provide detailed information concerning the name, address, occupation and other important information about all adult residents of a city. In addition to local circulation, Polk cooperates in the maintenance of City Directory Reference Libraries in cities throughout the U.S. and Canada. *The priceless ingredient of a City Directory is the accuracy with which it is made; accuracy is the product of experience; Polk has been compiling City Directories since 1870.*

DIRECT MAIL ADVERTISING FOR LEADING INDUSTRIES

Polk's Direct Mail Advertising Division—one of the world's largest—specializes in high-quality, productive advertising. America's largest industries are Polk's long-time clients. Polk's direct mail advertising is *complete* . . . consultation, research, testing, creating, printing, producing, and distributing to selected prospects. Polk's production plants are geared to handle more than two million mailings daily. Included in its production facilities is the world's largest battery of imprinting presses and the world's largest installation of automatic typewriters. *Polk's direct mail advertising services are dedicated to helping business men produce increased sales volume.*



NATIONAL MAILING LISTS AND MAILING SERVICES

The people of America are in Polk's list files . . . all businesses, trades, professions, and vocations . . . obtained through personal canvass. Polk also lists all automobile and commercial vehicle owners—by make of car or truck, by model, by year, by state, county and city. Mailing lists of one kind or another, totaling more than 60,000,000 names a year, are compiled for Polk clients. Facilities for multigraphing, typing, letter-press or offset printing, questionnaires or letters, and complete addressing, imprinting and mailing services are available. *Polk can reach the right prospects DIRECT, with the right kind of message.*

AUTOMOBILE AND BUSINESS STATISTICAL HEADQUARTERS

Since 1922 Polk has been statistician for the automotive industry. Polk total count of passenger cars, trucks, motorcycles and trailers by make, by year model, is the only annual inventory of the country's automotive equipment. Polk's new car passenger and truck reports furnish manufacturers and dealers with a monthly recapitulation of all sales for each territory . . . The first business census of the U.S. was a Polk project, giving statistics covering the number of manufacturers, wholesalers and retailers for each state, county and town. *Using Polk statistical services American business is able to plan intelligently its production, distribution and sales.*

SURVEYS AND CONSUMER RESEARCH

Fast, accurate research surveys and analyses, based on experience gained through nation-wide home and business canvasses, are provided by the Polk Consumer Research Division.

POLK BANKER'S ENCYCLOPEDIA

Polk's semi-annual directory of the banks of the nation is the outstanding Directory in the banking field. Polk reports on the condition of the nation's banks, their officers and directors, including a detailed statement on each bank, as well as listing investment dealers, stock exchange members, insurance companies, and other general financial data.

INTRODUCTION

R. L. POLK & CO., publishers of the Monterey, Pacific Grove, Carmel City and Seaside Directory, as well as more than 750 other city, county, state and national directories, present to subscribers and the general public this, the 1951 edition of the above directory, which also includes a directory of the rural free delivery box holders on the Carmel, the Big Sur and Carmel Valley and the Robles Del Rio routes.

Confidence in the continued growth of Monterey's and vicinity's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Monterey and vicinity to the world.

The enviable place occupied by POLK'S directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that this directory will fulfill its mission as a source of authentic information pertaining to the community.

Population

The estimated population of Monterey is 18,000, based on the number of individuals' names in the alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory. The population of Pacific Grove is estimated at 10,000; Carmel at 5,900; Seaside at 12,000.

Six Major Departments

The several essential departments are arranged in the following order:

The ALPHABETICAL LIST OF NAMES of residents, business firms and corporations for Monterey is included in pages 13 to 200, on white paper. A similar list for Pacific Grove is contained in pages 241 to 340; for Carmel, pages 369 to 444; for Seaside, pages 445 to 532.

THE DIRECTORY OF HOUSEHOLDERS, TENANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES AND STREET AND AVENUE GUIDE for Monterey covers pages 201 to 240, on pink paper. In this section the names of the streets and avenues are arranged in alphabetical order, the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers. Home property ownership is indicated by the character ◎, placed immediately after the name of the householder. The symbol ▲ preceding name denotes householders and places of business having telephones. A similar guide for Pacific Grove is contained in pages 341 to 368.

THE BUYERS' GUIDE, beginning opposite page 532, and separately paged from 1 to 68, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Monterey, Pacific Grove, Carmel, Seaside and vicinity. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The community's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like the Monterey district, the necessity of having this kind of information immediately available, is very great, and frequently, pressing. General appreciation of this fact is evidenced by the liberal support the directory enjoys in the many fields which it serves.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 533 to 638, on white paper. This department lists the various manufacturing, mercantile and professional interests of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE RURAL ROUTES DIRECTORY, pages 639 to 652, on white paper, includes the box holders on the Carmel, the Big Sur and Carmel Valley and the Robles Del Rio rural routes.

THE NUMERICAL TELEPHONE DIRECTORY for Monterey, Pacific Grove, Carmel and Seaside begins at page 653, on white paper.

Community Publicity

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site, and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of Monterey and vicinity, for business men everywhere realize that the City Directory represents a community as it really is.

The Monterey Directory Library

Through the courtesy of the publishers of the Monterey, Pacific Grove, Carmel and Seaside Directory, a Directory Library is maintained in the offices of the Monterey Chamber of Commerce, for free reference by the general public. This is one of more than 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the directory as an advertising medium, with assurance that it will bring a commensurate return.

MONTEREY

Most of the early day charm of California's first capital (from 1776 to end of 1849) under the Spanish and later under the Mexican flag is retained in the historic old buildings and homes of the old town. Monterey's numerous residential districts provide beautiful natural settings for homes and gardens of people from all parts of the world who come here to take advantage of the mild climate and the warm hospitality of "Old Monterey." Here the first Constitution of the State was written at Colton Hall. Monterey became the capital of California in the same year that Philadelphia became the capital of the Atlantic colonies. The port of Monterey was named in 1602 by Sebastian Viscaino—18 years before the Pilgrims landed at Plymouth Rock.

In 1770 Father Serra founded the San Carlos Mission which he later moved to the Carmel Valley. The San Carlos church is still in use and contains the vestments of Padre Serra while his body is interred in the Carmel Mission.

Started by Mexico in 1827 and completed in 1846, the Custom House has flown the flags of two nations from its flagpole. Here Commodore Sloat first raised the stars and stripes when the United States formally took California in July 1846. It is the oldest governmental building in California and is now owned by the State of California as a Historical monument and is maintained by the Parks Commission as a historical museum.

Monterey is rich in historic lore and tradition and many fine old buildings, some of them the inspiration for the Monterey type homes which are now popular in many parts of the world, have been faithfully preserved and have proven a source of inspiration and pleasure to visitors and residents alike.

Aside from recreation, which amounts to an "industry" in this region, commercial fishing is the one big thing in Monterey. For more than 400 years, ships have played their part in the history of Monterey and now Monterey Harbor is the home port for some sixty purse seine type fishing vessels valued at approximately $6,000,000. The fishing fleet keeps the many canneries supplied with sardines and other types of fish during the fishing seasons. The $20,000,000 canning and processing plants convert the raw product into canned food which is shipped all over the world. The fishing industry, running into millions of dollars annually on the Monterey Peninsula, actually began in 1904, when F. E. Booth established the first cannery for the processing of sardines.

Artists were on the Monterey Peninsula when Robert Louis Stevenson came in 1879. They have lived and worked here ever since, and with good reason. The place has been a haven for them. They can work out of doors every month in the year. It's so insistently beautiful they never become unaware of that beauty. Land and sea has never met more spectacularly than at the Monterey Peninsula and color is brilliant under sun and intense when muted by fog. Living can be simple and fairly inexpensive and the atmosphere is conducive to creative thought.

The first newspaper was born in California—at Monterey, August 15, 1846, although it was printed on a material "used to envelop the tobacco of the cigar smoked here by the natives." The editor and founder was Rev. Walter Colton, chaplain on Commodore Stockton's frigate Congress.

The Presidio of Monterey was founded by the Spaniards in 1770 and for many years was the headquarters of the 11th U. S. Cavalry and also home for part of the 76th Field Artillery. At present it is the U. S. Army Language School where students are taking specialized work in 21 foreign languages.

Fort Ord, six miles north of Monterey, is one of the west's largest Army training intallations.

The U. S. Navy General Line School, located in the former Hotel Del Monte, is rapidly becoming one of the world's finest naval educational institutions.

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

HOW TO USE THIS DIRECTORY

To get the most good from this Directory you must know what it contains and how to use it.

You can not get this knowledge by glancing hastily through the book, and assuming that your mind grasps a full idea of its contents from the name.

Read the Title Page, front of Book, and glance over the Index.

IT PAYS to be Prominently Displayed

To let the people know WHO you are, WHERE you are and WHAT you have to sell. The City Directory keeps your name before the public 365 days in the year, and it cannot be prominently displayed in any book so CONSTANTLY used as the City Directory.

GOOD BUSINESS INSURANCE!

Your advertisement in the City Directory with proper business listings insures your business against loss of trade.

The manufacturer or business institution that overlooks this fact is not building for the future.

The City Directory is active 365 days every year—let it serve you as it does others.

Our representative will be pleased to call and explain the value of reference advertising.

POLK'S
MONTEREY
Directory of Householders
Occupants of Office Buildings and Other Business Places
Including a Complete
Street and Avenue Guide
1951

Copyright, 1951, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical streets are compiled following the Named Streets.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol ⍙ preceding name denotes householders and places of business having telephones.

(This section includes some listings reading "No return." In each case the publishers tried diligently, by various means, to obtain the information for the occupant but were unsuccessful. First, several personal calls were made by an enumerator; next; a double post card was mailed and the telephone used when possible).

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

PACIFIC GROVE—"CITY OF HOMES"

Pacific Grove, city of homes and home-loving people, lies adjacent to Monterey, toward the northern tip of the Monterey Peninsula. Founded as a religious retreat, in 1869, the town has grown into a prosperous and beautiful city. In 1879 the second Chautauqua in the United States was founded here.

The motorist will find attractions in Pacific Grove to make his stay one of pleasure.

FOR THE TOURIST

The tourist will find plenty of things to do and see here—Wonderful Marine Gardens to explore in glass bottom boats. Boating and bathing enjoyed under the safest conditions. Experience the thrill of angling for gamest of fish.

MUNICIPALLY OWNED

Nine-hole golf course, in charge of expert professional.

A number of tennis courts, roque court and horse-shoe pitching.

Heated salt-water plunge. Spring boards and life guard.

Softball field, with grand stand seating 500.

A number of supervised children's playgrounds.

The greatest number of public parks of any city of its size in the State.

A $40,000 Museum, one of the most complete of its kind. Its exhibits are visited by leading scientists from everywhere.

BUTTERFLY FESTIVAL

The City welcomes annually the visit of the Monarch Butterflies. They come from as far north as the Canadian Rockies in October and leave in March, and have been doing so since time immemorial.

A Pageant is held in their honor about the middle of November each year which is a colorful affair based on Indian legend, with many actors taking part. It is drawing increasingly larger audiences each succeeding year.

PACIFIC GROVE HAS UNIQUE PERSONALITY

Pacific Grove is one of the most all-American cities in California. In its people, it is almost a bit of New England transplanted to the California coast. That is reflected in its many churches, customs, homes, personality, great voting capacity in elections, public interest in public affairs. Its people are almost entirely American for several generations past, and here they have built a beautiful city of homes where lawlessness of any sort is practically unknown. It is a city of well-kept gardens and flower lovers.

The beaches and rocks along this part of the coast offer wonderfully engaging games of "finding things" at low tide. It is natural, therefore, that at Pacific Grove has been located the Hopkins Biological Laboratory branch of Stanford University where intensive study of biology is carried on under the direction of a faculty of illustrious scientists.

The most beautiful vistas on the scenic Seventeen-Mile Drive are found on the sightseeing trip from Pacific Grove around the Drive and through Pebble Beach to Carmel.

There are many entrancing walks and bridle paths to be found in the pines behind the town.

Here are unequalled motor roads leading to wonderful drives and to a hundred and one natural points of interest.

Fort Ord, a large military camp, is but twelve miles from Pacific Grove.

Follow the butterflies to Pacific Grove.

Directory of Householders

Occupants of Office Buildings and Other Business Places Including a Complete

Street and Avenue Guide

1951

Copyright, 1951, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical streets are compiled following the Named Streets.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol Δ preceding name denotes householders and places of business having telephones.

(This section includes some listings reading "No return." In each case the publishers tried diligently, by various means, to obtain the information for the occupant but were unsuccessful. First, several personal calls were made by an enumerator; next, a double post card was mailed and the telephone used when possible).

TRADE!

You like to patronize those concerns who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution.

It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such fundamentals as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

The Publishers.

Names Appearing in Bold Type

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY and PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

Carmel-by-the-Sea

With a picturesque setting on the hillside, in a pine forest with a crescent-shaped beach facing the blue waters of Carmel Bay, Carmel-by-the-Sea is the ideal community for the writer, the artist, the poet, the scientist and the tired business man. It overlooks the Carmel Valley and the Carmel Mission on the south, and here rests the remains of the Founder of the California Mission, Padre Junipero Serra.

Advertise Your Good Things

Many a limping business is kept from healthful development by the morbid aversion of one of a firm's members to publicity—perhaps he is honestly so conscious of the excellency of his wares that he expects the world to search them out. But the busy world hasn't time. If you have a good thing to sell proclaim it from the housetops. The world wants good things, but it can't discover them in hiding places. Bring them into the market place.

SEASIDE

Joining the east limits of Monterey is Seaside, Calif., the second largest unincorporated district in Monterey county.

The area was founded by Dr. L. D. Roberts, who developed it from grazing land for cattle into a thriving community of 12,000 persons. Dr. Roberts was a county supervisor for more than 20 years and also was largely responsible for the contruction of the famous Coast Road between Carmel and San Simeon. He also aided in negotiations for the government purchase of Fort Ord reservation which borders Seaside on the North and East.

Seaside potentially is the greatest district on the Monterey Peninsula for industrial development. It has considerable vacant property along the beaches of the Monterey Bay and along railroad lines.

REAL ESTATE and BUSINESS OPPORTUNITY BROKERS
Ocean Avenue Carmel Telephone 7-6741

The area is only a few minutes drive to the myriad of recreational facilities on the Monterey Peninsula, including Carmel, Pebble Beach.

Living within its borders are thousands of Army and Navy personnel who are stationed at Fort Ord and at the Navy General Line school.

The area has an active Chamber of Commerce, a weekly newspaper, and numerous civic and patriotic organizations. It has a new, modern theater and many modern buildings.

Consult The Classified Business Lists in this Directory

The City Directory . . .

places the city on the map and is its only representative to the world beyond its own gates.

It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.

It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

The men who direct the affairs of progressive and up-to-date business institutions, recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

Its Classified Business Section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.

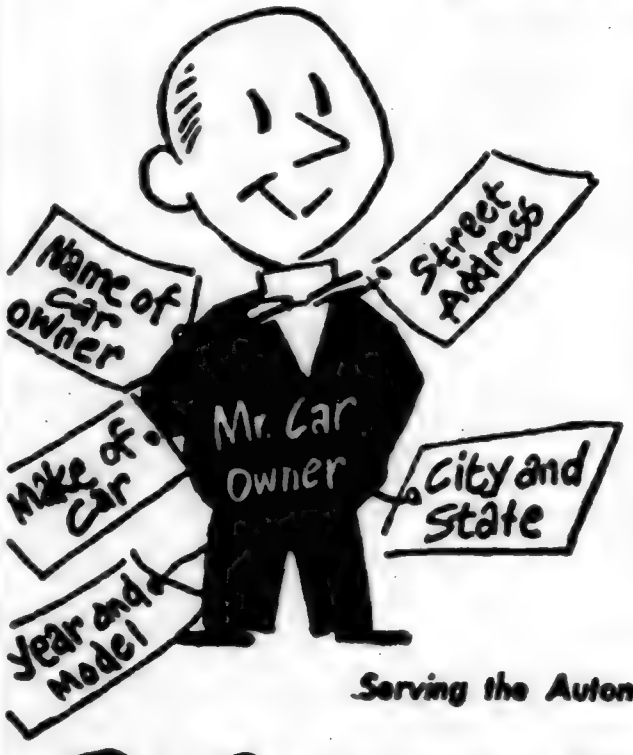
...About Your Car Owner Lists



Whatever information an auto owner puts on his license application appears on the new Polk official car owner registration list, now available to you. Every name on a Polk car owner list is "cleaned" ahead of time. Only names of persons to whom mail can be delivered are compiled for you. Polk Car Owner Lists are not "loaded" with extra names that would waste your time and money in sending out mail, or in making personal calls.

Success or failure of any direct mail advertising program depends on your keeping that list up to date.

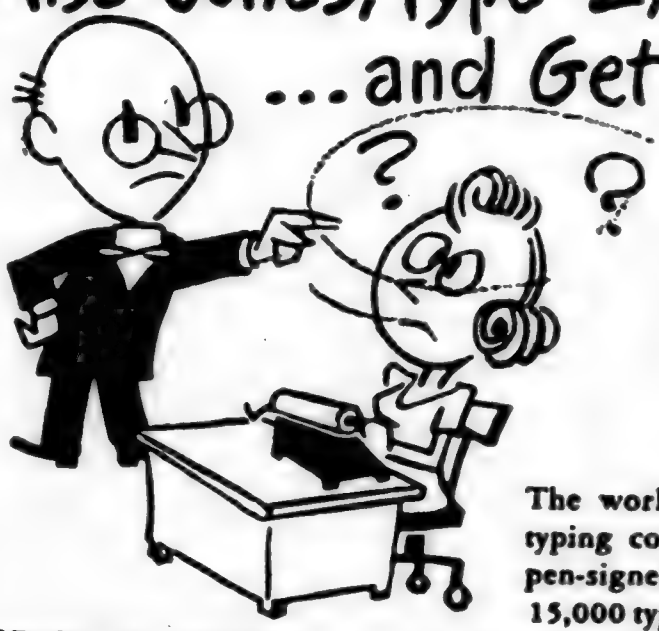
"Miss Jones, Type 2,500 Personal Letters ...and Get 'em Out Today!"



Do you want *real response* from your customers and prospects? *A personally-typewritten letter gets the highest results!*

But you don't have the time, or facilities? And you can't afford the expense of hiring 30 typists? R. L. Polk & Co.'s Automatic Typewriter Division has the answer for you!

The world's largest battery of automatic typewriters—typing completely personalized letters, each individually pen-signed—can produce 500 or 15,000 typewritten letters for you, READY TO MAIL—in a matter of hours. *And the cost is a fraction of what it would cost you to do it yourself.*

Simply send along your list, your letterheads and envelopes, your instructions. Or, ask for complete information from:

Out of Sight!

Out of Mind!

Out of Business!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

THE CITY DIRECTORY IS THE NATURAL MEDIUM FOR KEEPING A BUSINESS OR PRODUCT NAME IN THE SPOTLIGHT. *INSIST ON BEING WELL REPRESENTED IN ITS PAGES.*

LOCATING MISSING HEIRS FINDING LOST PERSONS

This is only one of the many offices that the modern directory successfully fills

The directories of the United States form a perpetual inventory of the human element of the nation as well as the business activities. Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these "city catalogs" contain.

Real Estate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and subdivisions in which they have a personal or business interest.

Credit managers have unlimited use for the pages of the modern directory, as have collection managers and agencies.

The uses of the City Directory are legion; the information is authentic and the manufacturers and companies that are represented therein are reputable and dependable.

Common Sense . . .
ABOUT CITY DIRECTORY CIRCULATION —

☆

The true value of advertising circulation is circulation consulted.

To be exact by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made. For every thousand directories sold there will be an average of three and one-half daily consultations for each book for three hundred and five days, therefore —

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for THREE HUNDRED and FIVE days, therefore—

1000 x 3½ x 305 = 1,067,500

Power of Advertising

The CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase.

If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

Our Service Can Not Be Excelled

THE PUBLISHERS

Your City Directory

Is something more than—

A Book of Names and Addresses
A Catalogue of Trades and Professions
A Street Guide

It is a SERVICE that brings you daily in closer touch with your Customers and Friends.

IT ENABLES YOU to address them each and every one.

To avoid the offense of incorrect spelling and addressing.

To find new customers.

To tell who lives in any house in the city.

To find local sources of supply for hundreds of articles.

IT WILL SAVE YOU time and money both in buying and selling.

It will make you more efficient and will protect your standing as an accurate and progressive business man.

Your directory gives you an accurate bird's-eye view of your city, its institutions, inhabitants, government and buildings.

Always Use the Latest Edition!

TRADE!

You Like

TO PATRONIZE THOSE CONCERNS WHO ARE IN BUSINESS TO STAY. . .. . . .

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers. Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such fundamentals as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

KNOW YOUR DIRECTORY SYMBOLS

This Publication Is The Product of a Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

ulation

THE TRUE VALUE of advertising is circulation consulted — "User Circulation."

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there is an average of three and one-half daily consultations for each book for three hundred and five days, therefore —

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.
